LCD Kiosk with Built in Ad Player

Our dynamic commercial grade digital ePoster will captivate your customers with its vivid high definition 1080p display. ePosters come equipped with a built in media player with 4GB of on board memory. This media player is capable of playing digital media of all types in multiple zones along with scrolling text. All screens come with a free user-friendly playlist editing software. This software allows you to manage your media campaigns playlists, schedule when ads play and their duration, as well as set the on/off time for the screen. All media content is then loaded to the screen via USB flash drive. These screens are also scalable to fit any digital sign program by housing your choice of mini PC inside the screen and connecting it to your digital sign network. Signs include 5 watt built in speakers. This ePoster is constructed from powder coated steel and features an integrated internal cooling system for extended operating times. A tempered glass face has been added for safety, security and ease of cleaning. All displays can be anchored to the floor. *4 and 6 point touch options are available for special order - minimum order charges apply.*

Wall Mounted ePoster with Ad Player

Our all new Wall Mounted Digital ePoster are available in 5 different sizes to meet your signage needs. Each ePoster comes equipped with a built in media player with 4GB of on board memory and built in 5 watt speakers. This player is capable of playing digital media of all types in multiple zones along with scrolling text. All screens come with free user friendly playlist editing software. This software allows you to manage your media campaign playlists, schedule when and for how long ads play, as well as set the on/off time for the screen. Information is then loaded to the screen via USB flash drive. The revolutionary Auto Play system option allows you to schedule when you want the display to switch between preset actions. All models feature a tempered glass face, all steel housing and come with a secure flush mounted wall bracket. All signs are VESA compatible. Replace those old backlit printed graphics and start displaying those announcements, special promotions, directories and menu boards on our easy to use digital displays.

Commercial Series Display

Monitors connect together to form a video wall

Commercial Grade Video Wall

Our Video Wall panels make your digital signage easy to implement, configure and operate. Video Wall displays support an extensive array of connectivity options, including VGA, DVI, HDMI, composite, and supports RS-232C serial connectivity for multiple display control. Ranging from 11mm to 5.7mm, the ultra-thin bezels make these displays appear nearly seamless for video walls consisting of up to 250 displays. Our displays feature advanced cooling technologies that allow for reliable operation 24 hours a day, 7 days a week. Signs also feature built in 5 watt speakers. Our Video Wall software allows you to change, reposition and resize content in real time from a single PC. No matter where you display these screens you can be assured people will be captivated by your message.

LCD Commercial Display

Our commercial grade displays support an extensive array of connectivity options, including VGA, DVI, HDMI, and composite, as well as supports RS-232C serial connectivity for multiple display control. This functionality is great for command centers, security departments, menu boards, and large scale digital signage networks. Our LCD Displays feature advanced cooling technologies that allow for reliable operation 24 hours a day, 7 days a week. Displays also feature built in 5 watt speakers. These displays are the workhorse of the industry and will provide your customers with years of continual service and vivid high definition content.

Connectivity

Multiple ports offer flexible connectivity

Interactive LCD Display

The enhanced sensitivity of the infrared touch screen technology makes our interactive touch screens easier to operate. Simply plug it into the display, install the drivers into your computer and its ready to go. Our screens support 2 points of simultaneous contact, which allows for multiple gestures such as zooming in & out, dragging and rotating. These screens also fully support Windows 7. Interactive Displays have a fast response time and a 3mm protective glass panel which gives you enhanced sensitivity, reliability and long operating hours. RS232C in-out ports, a standard of serial communication, are used for the communication between the PC and display. Signs also feature built in 5 watt speakers. This Multiple Display Control (MDC) helps various displays to be easily and simultaneously operated. LCD Displays support VESA flat display mounting interfacing standards. VESA wall mount standard holes are incorporated into the design to allow enhanced installation options and versatility. These large format displays enable simple 3rd party installation. Captivate and empower your audience with our new LCD display.

Communication Board Options

Explore the potential options for each board within these pages, highlighting the different components and options for our boards. We've created standard designs for all of our boards, but customization is always an option. Choose from different sizes, frames, panels, lighting options and more on these pages. For added convenience, we've also added Customize Your Board footers to each page, highlighting relevant options pertaining to each category.

1. Size

We make boards in almost any size you need – simply let us know the overall size or viewable area. Our Standard manufacturing tolerances are ± .125" over each linear foot.

2. Frame

When selecting a frame, it is important to keep in mind both the material as well as the design. Different frame materials are available in different colors, as well as different designs, such as with radius corners or radius edges.

Traditional Frame

Radius Frame

Radius Frame with Radius Corners

Slim Style

Aluminum Frame Colors (Upcharge)

Black   Gold   Bronze   Satin*   White

Regular Wood Frame

Open Faced Non Decorative
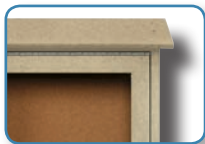

Wide Wood Frame

Decorative Wood

Wood Frame Finishes

Walnut   Light Oak   Cherry

Enclosesd Recycled Plastic

Outdoor Message Board Colors
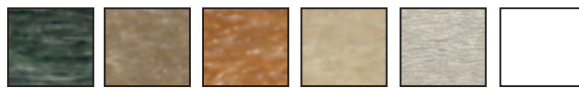

Green   Wood   Cedar   Sand   Light Gray   White

3. Insert

Standard boards with inserts are available; however, boards can be changed and customized with different inserts upon request. Many boards can be customized with two different inserts in the same board.

Cork
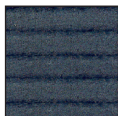

Letter Board

White Dry Erase
Melamine
Porcelain Steel

Black Dry Erase
Melamine
Magnetic Chalkboard
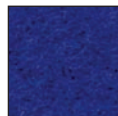

Easy Tack

Magnetic Directory
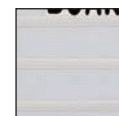

ReaderBoard

4. Window
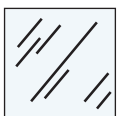

Acrylic
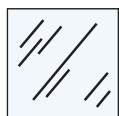

Polycarbonate
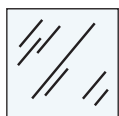

Tempered Glass

• Acrylic – Doesn't yellow as fast, better clarity, less likely to scratch
• Polycarbonate – less likely to chip, impact resistant
• Tempered Glass – scratch resistant, highest quality

5. Indoor/Outdoor Use?

Our new Outdoor PLUS design was created to keep your Enclosed Outdoor Boards safe during all types of weather. Ideal for locations with heavy precipitation, this board add-on features weather-stripping and additional holes in the bottom of the board for drainage. Add PLUS to the board model number, or call our customer service representatives for questions on our Outdoor PLUS option.

OUTDOOR *PLUS*

6. Identify Yourself

Choose to have headers built into your board or purchase a separate detached header to add to an existing board. We offer both vinyl screen printed header designs and custom photo header designs.

7. Light It Up!

Illumination is available in both the frame and/or the header. Choose between LED and Fluorescent Illumination.

Custom Vinyl Header
with Illumination

9. Mounting

We have mounting options for different boards, weights, sizes and wall types. Our standard mounting kit works with most style boards, and has been shown with the products it works with. Please remember that all installations require qualified contractors. The variation of materials, sizes, weights and wall types makes it imperative to consult a professional.

Tradition Frames have squared corners and a bold appearance. The doors close flush with the front of the frame on a full length, quietly operating piano hinge. This is most common design in the industry. See pages 5-6 for the available variations for this board. "Frame Lit" options are a new offering for this product, featuring LED lighting mounted inside the frame to illuminate the board surface. Visit BestSignBoards.com and search "Frame Lit" to view these boards.

Restroom Boards

New Restroom Boards offer three styles and two sizes to choose from. Display notices, restaurant specials or generate revenue with advertisements. All three boards are locking for additional security – just choose the style that best fits your establishment's needs or décor. Wood frame boards are available in Light Oak, Walnut or Cherry finishes. Radius Frame Hinged Boards are available with three finishes, while the Low Profile Radius Boards are only available in a Satin Anodized finish.

Open Faced Letterboards

UVEB1824 with Traditional Frame

Elevator Boards

High quality Radius and Traditional Frame Elevator Boards allow you to easily display elevator certificates, announcements, advertisements and more. These locking single-door units swing open on a full length piano hinge. All elevator corkboards feature a self-sealing natural cork panel. Be sure when installing that boards meet your state installation and safety codes, as well as elevator codes.

• Protective acrylic window
• Standard Satin Anodized Aluminum frame
• Lockable door on a full length piano hinge or lift off frame (2 keys included)
• Self-sealing natural cork interior
• Choose from Traditional or Radius frame

Recessed Memory Boxes

Designed originally for Nursing Homes and Assisted Living Centers, these unique Memory Boxes allow residents to add photos, trophies, keepsakes, and special items that help trigger their memory and aid them in finding their room. Now often utilized as display cases also. Memory Boxes also provide an activity for residents, allowing them to change contents as often as they like, as well as provide a sense of comfort and ownership. These lockable displays can be customized to match existing décor and color schemes. Choose from our standard frame options, wood finishes and standard fabric options or create your own custom design. The locking plexiglass door ensurtes that items are displayed securely.

- Light Oak standard finish
- Available with or without shelf
- Locking plexiglass door
- 2 keys included
- Larger/custom sizes also available

Mounting Information

- Designed to be fit between wall studs (16" on center)
- Wall insertion size measures 14½"W x 20½"H x 3½"D

## with Traditional Frame

UV1125

Indoor Enclosed Letterboards
• Spell out messages with enclosed letterboards
• Attractive Satin Anodized aluminum frame
• Lockable door mounted on full-length piano hinges (two keys included)
• Shatter-resistant, acrylic windows
• Illuminated units lit from top
• Black felt interior is standard
• ¾" Helvetica letter and number set included
• For indoor use only
⭐ LED Illumination now available - Please call for info

Case Dimensions:
• 1" wide main frame
• 1⁷⁄₁₆" wide door frame
• 2" exterior depth, ⅝" interior depth
• 3⅛" illuminated exterior depth, 1⅝" illuminated interior depth

Tradition Frames have squared corners and a bold appearance. The doors close flush with the front of the frame on a full length, quietly operating piano hinge. This is most common design in the industry. See pages 5-6 for the available variations for this board. "Frame Lit" options are a new offering for this product, featuring LED lighting mounted inside the frame to illuminate the board surface. Visit BestSignBoards.com and search "Frame Lit" to view these boards.

OUTDOOR PLUS

**3" Profile / Gasketed Window / Weather Seal
Door / Sealed Miters / Drain Holes**

Our new Outdoor PLUS design was created to keep your Enclosed Outdoor Boards safe during all types of weather. Ideal for locations with heavy precipitation, this board add-on features weather-stripping and additional holes in the bottom of the board for drainage. Add PLUS to the board model number, or call our customer service representatives for questions on our Outdoor PLUS option.

Electro-Adhesive Board

This efficient electronic board holds paper and other display materials in place with a low energy source, eliminating the need for tacks, tape or any other type of mounting device that can damage boards. Simply install at least one 9V battery or an external 9V AC adapter to activate the board's static adhesive surface. The Electro-Adhesive board is ideal for classrooms, conference rooms, training centers and more.

- Batteries/power source not included
- Lightweight Anodized aluminum frame
- Includes hangers and mounting equipment
- Insert color: black

Indoor Enclosed Magnetic Dry/Wet Erase Boards

Locking Dry Erase Boards provide confidence that messages will not be tampered with. Boards are available with four substrates – choose from white dry erase or black dry erase, both available in magnetic and nonmagnetic options. Frame options also include a traditional style, radius edged style or radius edges with radius corners. Magnetic porcelain on steel boards can easily be turned into locking directories. White Porcelain on Steel boards work with both dry erase and wet erase markers, or can be used with magnetic strips to create a directory. Black Porcelain on Steel boards work with wet erase markers, chalk markers or magnetic strips.

• Porcelain on steel magnetic or melamine nonmagnetic surface
• Satin Anodized Aluminum frame
• Locking (2 keys included)
• Protective acrylic window

Case Dimensions:
• 1" wide main frame
• 1⁷⁄₁₆" wide door frame
• 2" exterior depth
• ⅝" interior depth

Illuminated SNAP Frames
Single/Double Sided

UV10016

Illuminated LED Snap Frames

Similar to Aluminum Snap Frames, these boards feature the same snapping closures with LED illumination that lights up your image. Frames are designed with a 1" wide snap profile, mitered corners and a silver Anodized Aluminum construction. This display board also includes a ¾" thick acrylic insert with an anti-reflective PET protective cover, a hidden yet easy-to-access power switch and an extra long power cable. The front-loading design of this board makes changing out signs quick and easy.

- 1" profile
- Snap closures
- 12v DC powercord included

Single Sided

Enclosed Message Centers

UVSD4832

Finished Back Panel

Single Door Message Centers
Now Available with Top Lit Fluorescent Illumination

Display important messages while protecting them from the elements. Durable Single Door Outdoor Message Centers keep postings dry and secure with reinforced doors and a weather strip seal. The side hinged door is lockable and swings on a full length piano hinge. Outdoor message boards also feature a high-density polyethylene construction that prevents rotting, splintering and cracking. A finished back panel adds to the overall integrity of the structure. Choose between a self-sealing cork insert, black vinyl letterboard insert or our new synthetic fabric-covered tack board for the interior. Letterboard inserts include 145-piece 2" Helvetica letter/number set.

- Boards can be illuminated from the top to flood the panel surface with light
- Includes two keys
- Posts optional – order separately
- Please allow for extra lead time
- Available in bottom hinge option - See next page

Case Dimensions:
- ¾" wide main frame
- 1½" wide door frame
- 5½" exterior depth, 3¾" interior depth
- 8½" rain cover depth

⭐ LED Illumination now available - Please call for info.

Outdoor Letterboard Disclaimer

With letterboards from United Visual Products, it is essential that the environment around the board be taken into consideration when mounting outdoor enclosed boards, including the direction of the sun, the color of the insert, and the range in temperatures at different times of year. During hot seasons, these sealed boards can become super heated and inserts will warp if not installed and ventilated properly. If located in a warmer climate, consider choosing a board with a lighter exterior color construction, as well as a lighter insert. Please call our customer service department with any further questions.

Double Door Message Centers
Now Available with Top Lit Fluorescent Illumination

These Double Door Message Centers have the same features as the Single Door units shown above, but are split down the middle for multiple content and the ability to manufacture wider cabinets.

- Boards can be illuminated from the top to flood the panel surface with light

Sliding Door Message Centers
Now Available with Top Lit Fluorescent Illumination

High-quality Sliding Door Message Centers are an ideal outdoor board for displaying messages and information. The body is constructed of heavy-duty plastic that will not splinter, crack or rot, while the durable sliding doors roll on nylon wheels with minimal effort. Boards are constructed with a finished back panel that adds to the overall aesthetic and structural integrity. While weather resistant, boards are not waterproof. To seal from rain and snow, mount boards in a sheltered location, while also adding our weather strip door kit to your order. This kit seals along the two sliding glass door panels and the vertical door frames. These locking units also feature a removable interior surface, making changing displays simple. Choose between natural self-sealing cork or vinyl letterboard inserts. Letterboard kits include a 145-piece 2" Helvetica letter/number set.

- 2 keys included
- Post optional – order UVMCP separately
- Please allow for extra lead time

Signs can be mounted in brick, stone, and concrete, or with sturdy aluminum posts (sold separately).

Economy Outdoor Readerboards

These readerboards are considered economy only because just the header is illuminated and use "stick" prop arms instead of gas charged. The readerboards still feature an entirely aluminum housing and hinged door frame.

- Provide a vibrant, clear, and informative message for a low cost
- Top header allows for large single or two line copy
- Top hinged door with tamper-proof locks
- Crystal clear ¼" polycarbonate window
- 3" cabinet
- Extruded PVC clear copyboard track
- ⅛" White acrylic background
- 4" on 5" standard letters and numbers included - 300 piece set
- U.L. listed fluorescent light fixture behind unit's header on illuminated units
- Top header is only illuminated
- 9 ¾" White acrylic header panel included on door
- Custom side logos (when custom ordered) are on the readerboard panel
- See page 66 for readerboard letter sets

Heavy-Duty Outdoor Readerboards

Heavy Duty Readerboards utilize an aluminum cabinet that is 9.25" in depth for single faced designs and a 13.5" for double faced. These readerboards withstand even the worst weather because of their .125" aluminum extrusion cabinet and polycarbonate window. Our Heavy Duty Readerboards also have an integral hinge and gas charged shocks.

- Decorate your property with our informative, heavy-duty outdoor Readerboards
- Bronze Anodized aluminum frame
- Hardware and cabinets are all-welded with 3/16" thick aluminum extrusions
- Weather-resistant, 0.040 aluminum backing
- Aluminum framed, vandal-proof ¼" polycarbonate door
- Sturdy prop-arms and non-visible hinge for safe-and-quick door opening/closing
- Custom copy, logos and header logos available (must have camera ready artwork (UVCLOGO))
- Single face wall mount or single/double face aluminum post mounting (sold separately)
- 110 high output ballasts with cool white lamps to insure lighting in cold weather on illuminated units fully
- ⅛" translucent white acrylic copyboard with plastic copy rails that hold changeable 4" on 5" letters
- 72" x 48" signs holds 5 lines of wording and 84" x 60" signs include 7 lines with 4" on 5" plastic letters (UVCBA48)
- 300 piece letter set included
- Please allow 4-6 weeks for delivery, depending on production schedule

Case Dimensions:
- 2" wide door frame
- 9.25" depth - single faced / 13.5" depth - double faced

Basic Panel & Post - Level 1 Kit

"Basic" only refers to a post and panel system that is easy to assemble and install. It still has a number options to match the outdoor landscape, and unlimited graphics potential for the panel surface.

Color Options

Black   White
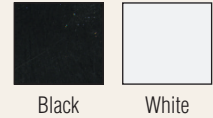

Posts

• Round or square

• White or Black powdercoat

• 8' or 12' standard lengths - cut shorter if needed

• White or Black locking strips to position panel on post

• .100 wall aluminum

• 3.25" diameter round or square extrusions

Panels

• Single Panel, double sided adverstising

• White or Black typical - other color options available

• 8'W x 4'H max

• Panel trim - White or Black only

• 3mm aluminum/composite laminated panels

Graphics

• 1-2 color vinyl per side. Review 3-4 color needs with Sales Representative

• Outdoor application vinyl, UV inhibitors, commercial grade

Options

• Round or pointed finials, White or Black

3.25"   3.25"   3.25"
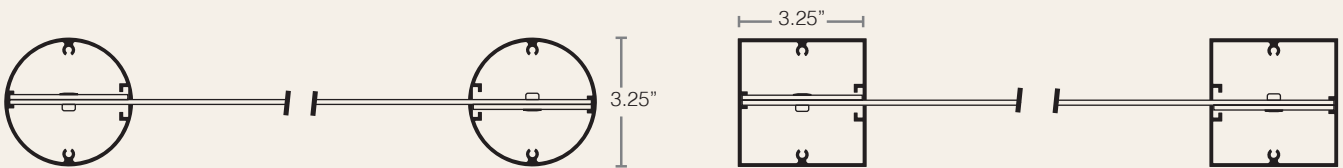

Function and Installation

Set depth of panel on post by installing the locking strips in each slot. Drop panel into slots on post and attach postcaps (finials if applicable). Snap on panel trim, set depth of hole (according to local codes and contractor recommendations), plumb and backfill.

Specify

Choose round or square posts, Black or White finish. Determine panel size, 8'W x 4'H max. Standard White or Black panel color or specify custom color (panel only). Add round/pointed finial or keep existing post cap. Provide artwork for application of vinyl graphics - we will generate a price, image and model number.

Box Panel & Post - Level 2 Kit

A "Box" panel has depth, or "thickness" to it. The "Box" design has a bolder look than the single sheet panel of our Basic-Level kit. The Box Panel - Level 2 Kit is prominent in hospital / financial / corporate outdoor identification and way-finding.

Color Options

Black   White   Bronze

3 Reveal Points
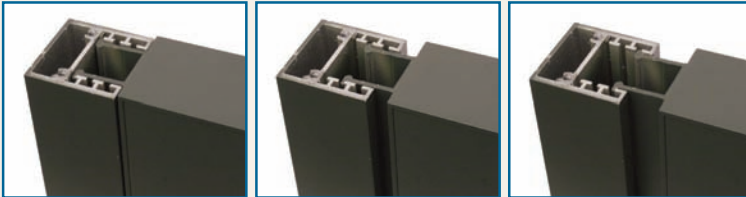

UVL242
Bronze

Posts

• Square Post, Bronze finish

• 8' long posts, custom to 16'

• Reveal adjustable - 3 positions

• Reveal filler - for under sign gap

▬ .100/.150 wall aluminum

▬ 2" x 2" square

▬ Post caps: aluminum plate, bronze finish

Panels

• Deep "box" style panel, bronze finish

• 8'W x 4'H Max

▬ 3mm aluminum / composite lami-nated panels on box

▬ Welded corners, VHB adhesive for panel to box

Graphics

• 1-2 color vinyl per side. Added layers or screening optional

▬ Outdoor application vinyl, UV inhibitors, commercial grade

Options

• Vinyl colors, panel colors, post colors

Function and Installation

Reveal filler is cut to length in the plant. This places the box at the top of the posts. Insert reveal filler, then insert box panel into the post. Position box in the inner, outer or center reveal slot. Attach the post cap. Fasten the reveal filler to the post. Set depth of hole, plumb and affix according to local codes and contractor recommendations.

Specify

Choose panel size max 8'W x 4'H, so reveal filler can be cut to length. Provide artwork for application of vinyl graphics.

Decorative Open Face Fabric Boards

Driven by the need for boards that can be entirely customized, we've created our Decorative Open Face Fabric line. Choose fabric color, frame size and frame design to create a board that accents your facility's existing décor perfectly. These attractive boards are available with high-quality, self-healing/semi-self healing fabrics that are laminated to a cork substrate. We've selected seven frame and fabric options that can be mixed and matched to most facilities. More fabrics and frames are available; our knowledgeable customer service representatives are happy to discuss more options with you.

- 7 frame & 7 fabric options
- Frames range from 1" – 3" in stock profiles
- Please allow for extra lead time

Some fabrics are more self-healing than others – please inquire when ordering.
- **Washable fabrics have been requested. Please specify your specific needs and cleaner that will be used. We will try to accommodate.**

Viewable Area is dependant on each frame style.

Custom Dry Erase Silkscreening

Get organized by creating your own grid, chart, calendar, or other diagrams. Our Silkscreening Department can produce your design and colors on our Dry Erase Boards. Please provide your design and print quantity for a prompt quote. We can assist you with production of your design for an additional charge. Typical leadtime is approx. 6 weeks. Typical designs are 1 or 2 colors and require at least a 50-piece minimum to be cost-effective based on preparation and press charges, but we are pleased to quote any project. Maximum size is 48" x 36".
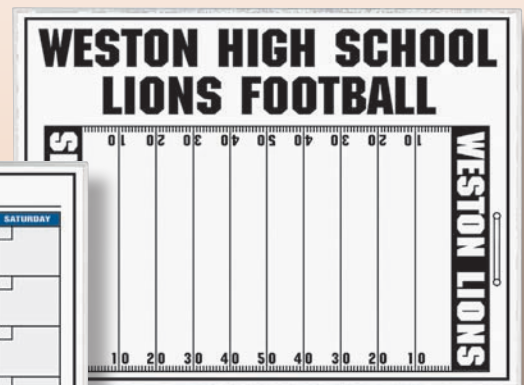

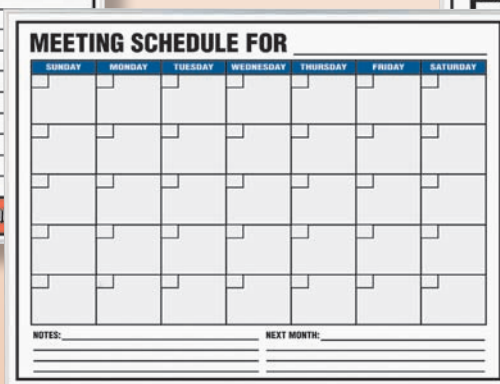

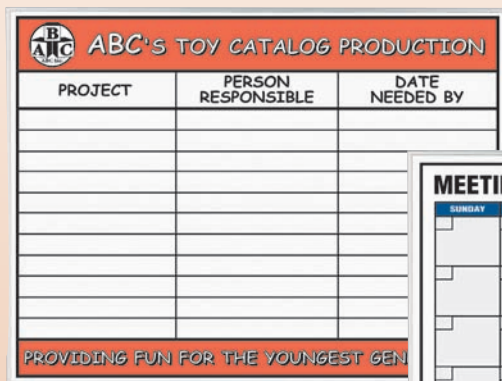

Sublimated Metal Dry/Wet Erase Boards

UV3648SBS
Steel Board with Sublimated Graphics
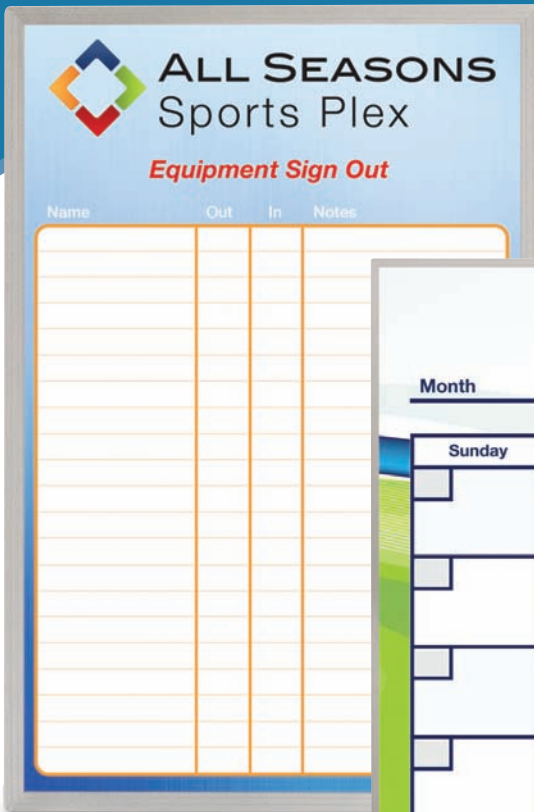

**UV1218SB**
Aluminum Board with Sublimated Graphics

Sublimated Metal Dry/Wet Erase Boards

Create high-quality custom boards with our unique and advanced sublimation process. The process of sublimation allows custom designs to penetrate the board surface, adding to its overall longevity. All designs are created with our 4-color printing process and offer a great alternative to standard screened boards. We offer two convenient surface options — steel for a magnetic board option, or lightweight aluminum, ideal for lapboard applications. Boards are backed with MDF and framed in aluminum. Chalk rails can also be added. Please call for more information on custom ordering. Small quantities can be created, however price reductions are more realistic with larger quantities.

- This option is quoted separately from the sublimated boards
- Steel or Aluminum board surface

Model #	Size (W x H)	Viewable Area	Weight	Surface

Easy Tack boards will not leave residue on display items (lamination recommended).

Quick and easy to rearrange display items.

Simply place your display item and it will adhere.

Fabric adhesive will hold your display item secure until you remove them.

Adhesive fabric holds any lightweight display item.

Easy Tack Instructions

Non-permanent self-adhesive fabric will hold pictures, menus, notes, reminders, brochures, art and more...the uses are endless! After removing plastic liner from fabric, simply place display items on self stick fabric and it will hold. To remove items, gently pull items away from the fabric. Recommended for indoor use. To clean, simply run a lint roller over fabric or dab with tape. To hang larger articles, we recommend laminating items first.

Production & Quality Improvement Boards

Manufacturing and distribution facilities utilize different procedures and methods to ensure that quality levels as well as output are maintained. These boards have been designed to represent different control solutions to help achieve the best possible workplace results. Boards are representative of actual Production and CI Boards, but can easily be adjusted to meet specific needs.

UV7266MBDEPT
The magnetic surface allows parameter trends to easily be represented, showing upward, downward or steady trends. Performance sheets are displayed in 8 ½" x 11" included fold-over acrylic pockets.
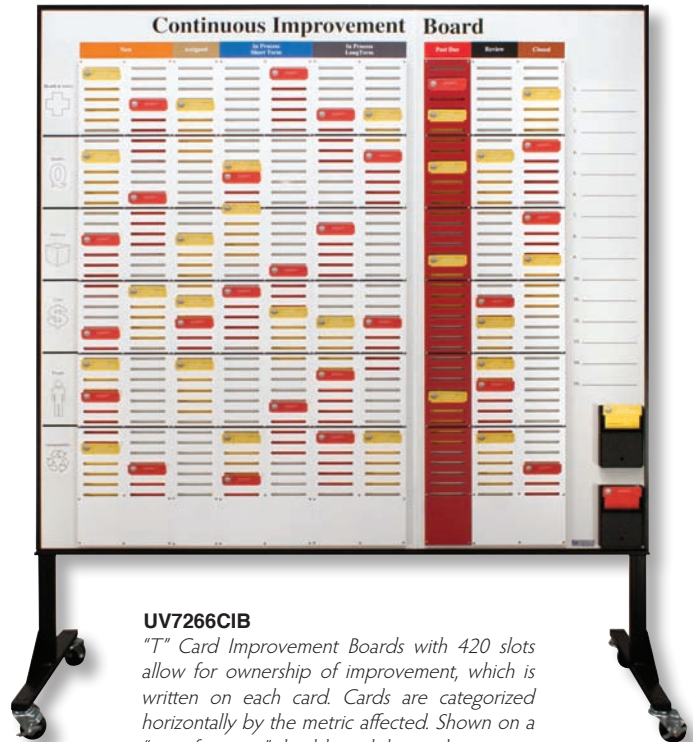

UV7266CIB
"T" Card Improvement Boards with 420 slots allow for ownership of improvement, which is written on each card. Cards are categorized horizontally by the metric affected. Shown on a "manufacturing" durable mobile stand.

Metric Trend Boards

These boards are ideal for monitoring the quality of production. Boards monitor the production outputs as well as the efforts of employees. Designed to eliminate inefficiencies in the workplace, these dry erase boards are allow production managers to visually identify the level of metrics.
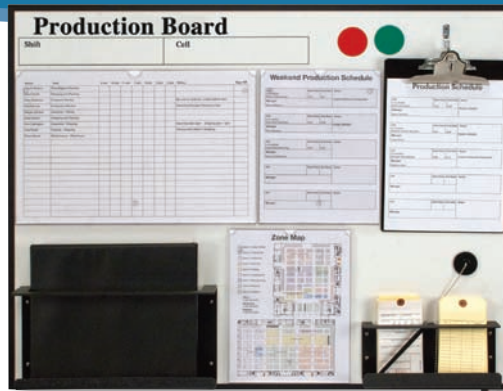

T-Slot Boards

Used to identify problems within businesses and production centers, T-Slot Boards offer a way to monitor continuous improvement. Outline and track projects that need to be completed or problems that need to be fixed with these large dry erase boards.

These boards are entirely customizable – please call our reliable Customer Service staff for questions!

UV2436RTB	Tag Area Board	24 " x 36"	23" x 35"	10 lbs.

UV3628WB

Work Cell Board with flip chart, tag holder, binder, clipboard all included. Easily identify output at each work cell with these boards.

UV1736WB

Work Cell Team Tracing Board

UV3628VSMB

Features productivity tracking in (4) 17" x 11" fold-over pockets

Production Boards

Production Boards allow you to identify the procedures and information documentation that pertains to each specific workplace station on a plant floor. These boards aid in communication between shifts, as well as allow supervisors to assess cumulative performances. Choose between a full and a condensed size, both with a dry erase surface.

Flag safety or quality issues. Boards include all components, including tag holders, clip board, chain and pen and fold-over pockets.

UV2436RTB

UV5448CISCB

Main control hub, includes fold-over pockets, binder holders and steel card holders

Control Boards

These large boards are designed for identifying pertinent and new procedures within a company or production center. Choose between two sizes, a larger board with separate panels for each new procedure or a smaller board when display space is limited. The smaller board conveniently holds all new procedures in an attached binder.

Letterboard

Corporate Series Boards

Our new corporate boards are high-quality display options that allow all of the boards in your facility to be of uniform design, regardless of the insert. Choose from our four standard boards – Black Wet Erase, Letterboard, Fabric and Directories, both magnetic and extrusion. These attractive corporate boards are also fully customizable to match your existing décor. Boards feature high functionality, with a surface mount design that is mounted through the frame. These decorative yet functional boards feature $1/8$" or ¼" thick acrylic that is retained with removable stand-offs, allowing contents to be secured, yet easily changed. Fluorescent headers or LED frame lighting is an available option, along with other accented colors.

ENGINEERING LAB

Wayfinding Boards

Tack Boards

Choose any of our standard or decorative fabrics to customize your board. Some fabrics are more self-healing than other, please call for details about specific fabrics. See color options on pages 5-6.

Black Wet Erase Boards

This attractive insert is constructed of magnetic porcelain on steel. Any type of fluorescent wet marker will work on these boards. Add our UVWEP5 for Wet Erase Markers. See our website at www.BestSignBoards.com to see how well the wet fluorescent markers stand out on black dry erase.

Letterboards

The standard insert color is black, with all of our additional letterboard colors available. Please call for questions about custom letterboard colors. This board includes one Helvetica Number and Letter Set.

Magnetic Screen Directory

Customize your own messages or identify suite numbers of tenants with these corporate design magnetic directories. Magnetic strips allow you to create and print your own directory nameplates. Choose from black, gold or silver name strips. Substrate comes in sheet form large enough to fill the directory.
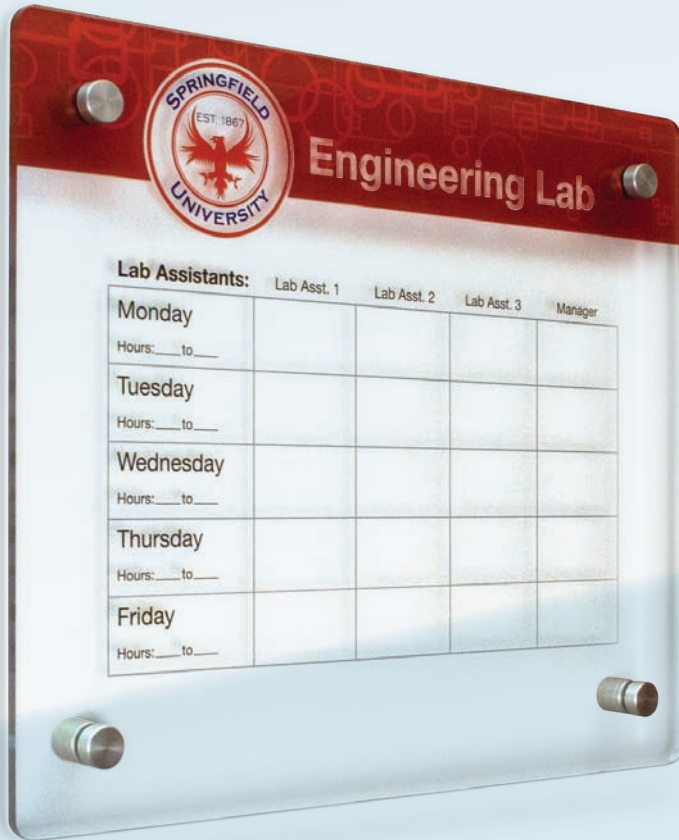

Extrusion Directory Boards

Extruded body panels allow for names to be added and removed with ease. Plastic name strips simply slide into the body panel from the side. Black over white engravable sheets are sent with each directory for local customization.

Wayfinding Boards

Available in two standard sizes, these signs are ideal for identifying direction or room numbers. Special custom sizes are available upon request. The simple design of these small signs feature our "Corporate Line" style for consistency throughout your building. A $1/8$" or $1/4$" acrylic cover with flame glossed edges decorates the engraved black gloss panel.
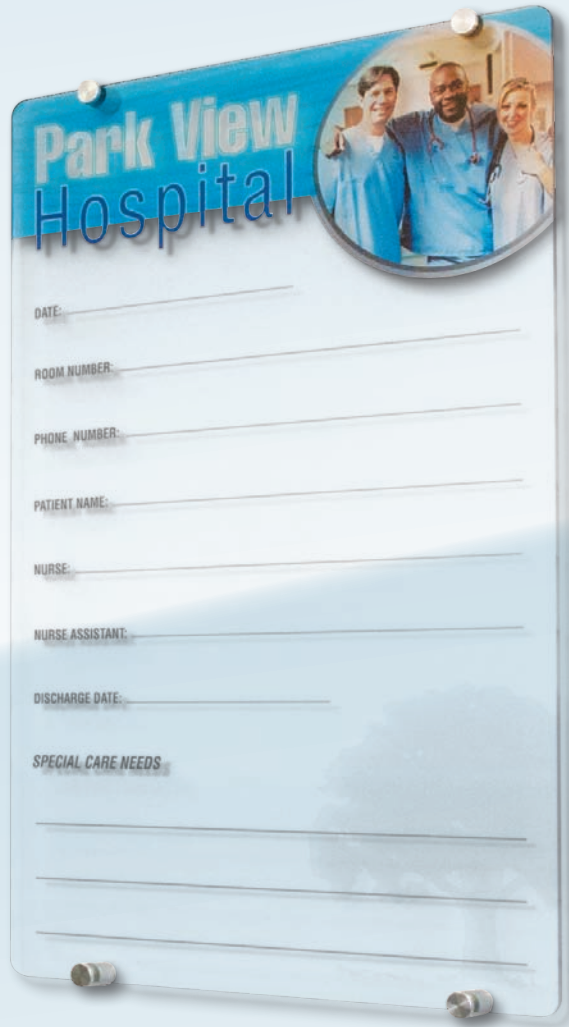

Clear Dry Erase Boards

UVCDE3624
Through Mounted with digital rear applied graphic

UVCDE2448
With rear applied graphic and edge mount stand-offs. Notice the silhouette tree in the bottom half of the board. We are the only company able to produce this type of graphic.

Clear Dry Erase Markerboards

These premier Clear Dry Erase Markerboards offer superior durability with an attractive and personalized design, making them the ideal alternative to standard dry erase wipeboards. The frameless, unobtrusive boards are feature a ½" shatterproof acrylic surface, radius corners and a coated surface for scratch resistance and functionality as a dry erase boards. All custom artwork and wording is reverse screened on the rear of the board to give longevity to the image. This product is shown digitally printed on film and applied by hand in our shop. This process allows us to create higher quality digital graphics and content than screening. The surface accepts standard dry erase markers and is easily wiped clean. Custom sizes are available, please call for details.

- .354" thick acrylic surface
- Shatterproof
- Mounts to wall with aluminum "through" or "edge" stand-offs
- Must be stud mounted
- Call for cleaning instructions

Economy Message Boards

These high-quality signs allow you to change their display in seconds. Each display holds two signs, perfect for setting in front of a shop, restaurant and more. The durable "Stay Tab" design eliminates the need for screws, tape or Velcro and assures signs will stay securely in place. These solid plastic displays can also be used indoors and out. Frames and kits sold separately.

UVAF2436

UVSS121
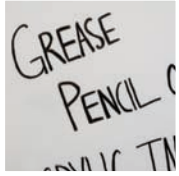

Grease Pencil Kit
Includes one acrylic insert and one grease pencil in your choice of Black, White, Red, Blue, Yellow or Green color options. Grease pencil kits can be used in rain and snow! Add GPK to the end of your board model number.

Wet Erase White
Includes two economy dry erase board inserts and five markers. Add WEW to the end of your board model number. Must be cleaned with EXPO cleaner - add UV1776C to your order.

Wet Erase Black
Includes two economy dry erase board inserts and five neon markers. Add WEB to the end of your board model number. Must be cleaned with EXPO cleaner - add UV1776C to your order.

Readerboard
Includes two economy readerboard inserts with both a black and red set of 3" on 4" letters and numbers.
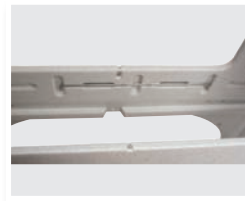

UVSS120G

Chalkboard
Includes one chalkboard insert in your choice of green or black. Add CB to the end of your board model number. A chalkwriter liquid pen works on chalkboard material. Call for details.

Wet Erase and Chalkboard options are not weatherproof and will damage in rain.

Lockers

Personal Privacy Lockers
Ideal for Cell Phones, Wallets and Keys

The Guardian Lockers are perfect for schools, offices, restaurants, or anywhere employees need to store their personal items or supplies. The Guardian Lockers offer an attractive, space saving, economical way to add storage space to your work place. Available in four different compartment sizes and three different mounting options, the Guardian Lockers are sure to meet all of your storage or security needs. Made of a tough 22-gauge steel cabinet, with thick polycarbonate doors, the Guardian Lockers can be conveniently added to any table top surface, floor mounted (with optional 6" base), or installed in the wall for greater space saving. Comes standard with 5-pin tumbler key lock with 1,000 key changes. Available with or without removable back panel.

Signage Artwork Requirements

To ensure you receive the best product available, we require that all artwork submitted must be in VECTOR formats. We accept artwork from the following programs in order of preference:

1. Adobe Illustrator
• CS5 or lower
• Type converted to outlines
• Acceptable file types are .AI, .EPS, or .PDF

2. Adobe InDesign
• CS5 or lower
• Type converted to outlines

3. Adobe Photoshop
• CS5 or lower
• Acceptable file types are .EPS, .PDF, .TIF, .JPG
• 300 DPI or higher resolution at true size

4. Corel or Freehand
• Files will be assessed in a case-by-case basis, but most likely will be processable.

If your job is being screen printed, please submit color separations of your file.

Manufacturer Warranty:

To the purchaser for the period of one year after purchase, we the manufacturer warrant that our product will be free from defects in workmanship and material under normal use and service. Our obligation under this warranty is limited to the repair or replacement of the purchased product at our sole discretion.

This warranty is in lieu of all other warranties, either implied or stated. Representations or promises inconsistent with or in addition to this warranty are unauthorized and are unbinding with our company. Changes or additions to this warranty must be in writing and signed by an officer of the manufacturer. In no event shall the manufacturer be liable for any special, incidental or CONSEQUENTIAL damages or expenses where foreseeable or unforeseeable.

Warranty shall be void if the product has been misused, improperly installed, damaged by negligence or accident or altered from original design. Our warranty does not cover damage due to shipment, whether damage is obvious or concealed. It is the responsibility of the customer to negotiate with the shipping firm to recoup value of the damaged product.

Return of goods

In the event that a product needs to be returned to the manufacturer, a Return Authorization Number must be obtained from our customer service department. Obtaining a Return Authorization Number does not imply or confirm liability of warranty or obligation to the manufacturer of liability. This number is only used for administrative purposes. Products may be refused if received without a Return Authorization Number, or if product arrives Collect.

Only after receipt of product will we, the manufacturer, inspect claims of warranty or returns and determine disposition of the product. All products must be thoroughly inspected by our returns department to determine if it is a candidate for warranty.

Return Authorization Numbers are only valid for a period of 30 days from date of issue. Customers are liable for shipping to the manufacturer for warranty evaluation or return of goods, and shipping fees are nonrefundable. Returned goods are subject to a fee of up to 50% and must arrive in re-saleable / new condition. Crating and box condition are subject to return fee.

All our products are manufactured to standard trade tolerances. It is up to the customer to communicate if different tolerances are required for any product. It is also the customer's liability to obtain a qualified contractor with experience to install these boards. The manufacturer accepts no liability for failure or damage of product due to contractor's inability to properly install product.

Crowd Control Regulations
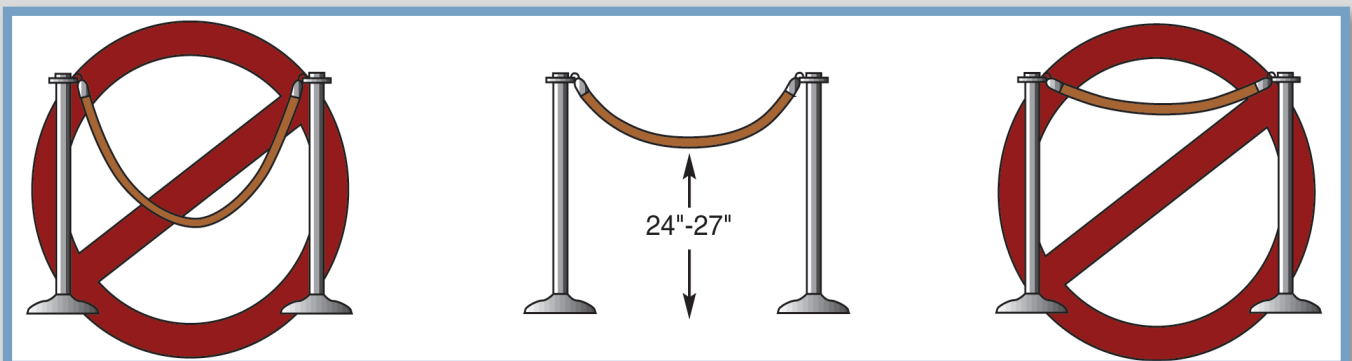

ADA Regulations

ADA 4.4.1 regulation concerning protruding objects requires that all objects should not exceed 27" in height. This is to ensure the visually impaired may detect the obstructions with a cane or a seeing eye dog. Our ADA Compliant Posts, Double Tape Posts, and Display Posts fully comply with these regulations. Our Traditional, Majestic, Metro, and Economy posts are also ADA compliant if set up correctly. We have included a diagram showing how to set up these posts so that they comply with ADA regulation 4.4.1. The diagram shows that for an 8'L rope, the posts should fall under 27". In addition, this prevents others from tripping over the rope, as well as keeping the ropes "loose" enough to keep posts stable.
